

Pick A Fence Competition – Competitor's Rules

Class 1 65 – 80 cm Yellow Markers - Jumps will be 10 or 20 points
Class 2 75 - 90cm Red Markers - Jumps will be 20 or 30 points

Each fence has a value starting with yellow course which is 10 points and 20 points.
Points in the red course will be worth 20 or 30 points.

A few fences have only one fence for each course and points will be awarded accordingly.

Yellow and Red Courses

Points will be marked on each fence. If the fence is jumped clear you gain the points allocated to it. If horse/pony refuses at the fence, then the points are deducted, but added if/when you jump the fence clear.

Example: -10 points and then +10 if clear on second attempt, taking the score to 0.
If you attempt the larger fence valued at 20 points and refuse you will get -20 points. If you then jump it a second time clear, you then gain 20 points.

You **may** choose to do the smaller fence after a refusal at the large and so would gain +10 points.

3 refusals at each fence and then you have to move on to next fence, if safe to do so.

A rider fall at a fence or between fences is -75points. Horse and rider may carry on only if the jump judge/stewards are happy for you to do so. (Please wait to get permission from officials)

Horse fall is elimination.

Failing to jump any part of an obstacle = -100 points

Fence 7

Yellow course: one choice (10 or 20 points)

Red Course: **a** = 20 points **b** = 20 points **c** = 20 points **or** larger option **c** = 30 points

Fence 9 and 10 (Water)

Yellow and red course: Enter water in walk/trot = 20 points

Water Bank exit = 20 points

Red course only: Jump out over log = 30 points

The winner is the rider with the most points. If riders score the same points, the rider nearest the optimum time will be the winner.

No Watches allowed. Optimum time
